N-Footbridge-01

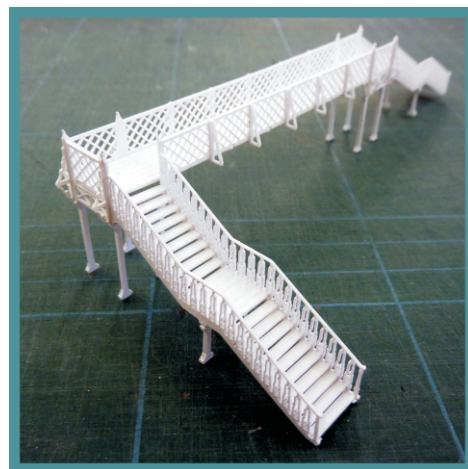

This footbridge can be assembled so it spans from a minimum of 47.5mm to a maximum of 135mm. It is 23.7mm high to the underside of the walkway.

N-Footbridge-02

This footbridge can be assembled so it spans from a minimum of 47.5mm to a maximum of 135mm. It is 34mm high to the underside of the walkway.

N-Footbridge-03

This footbridge can be assembled so it spans from a minimum of 24.5mm to a maximum of 135mm. It is 22.5mm high to the underside of the walkway.

These are versatile laser cut kits to construct a 'lattice' footbridge as used across Britain's railways. Comprising white Rowmark plastic detailed sides, steps and walkway. The bridge can be easily adapted to span the length you require and the steps fit together in variety of formations to suit your layout.

The Footbridge kit 02 has an extra flight of steps allowing it to be used at track bed level, and the standard height kits 01 and 03 are suitable as a platform to platform footbridge.

To complete the kit you will need a strong solvent such as Plastic Weld, a craft knife and a sanding block (240 grit.) Full instructions are included.

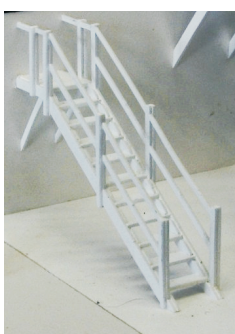

Signal Box Steps Kit
